Welcome to BMS Online System for TA Assignment!

(2019 ~ 2020)

I. Please read the following information before submission

CITY UNIVERSITY OF HONG KONG
DEPARTMENT OF BIOMEDICAL SCIENCES

Supplementary Practical Guideline for Teaching Assistant Assignment

Objective

This supplementary guideline is designed to enhance the teaching quality of Teaching Assistants (TAs) and encourage good communication between Course Leaders and TAs, while TAs can enhance their pedagogical skills from actual teaching experience during their graduate education.

The guideline is prepared based on the [Framework for Teaching Assistant \(TA\) Assignments for Research Degree Students](#) from School of Graduate Studies, and the [University Assessment Policy and Principles for Taught Programme](#) from the Office of Provost, which have clearly defined the roles and responsibilities of Programme Leaders, Course Leaders and Teaching Assistants.

Range of duties

As required by the University, postgraduate studentship recipients are required to perform departmental TA duties for not more than 10 hours per week on average of teaching and/or research support duties as assigned by the Department. The exact average hours per week depend on the funding schemes and apply for all weeks of the entire year, excluding one month of vacation leave and public holidays. Also, students should be assigned to work with staff other than their principal supervisor(s). Exceptional cases with strong justification may be considered.

Assignment of duties

Before the semester begins, Course Leaders should provide specific requirements of the TA duties of their courses, for example, working date and time, duty descriptions and preferred qualification. Teaching Assistants should fully understand the work requirements and duties before submitting their preferences. The Department will strive to appropriately assign TAs to courses according to their academic interest and ability, but reserves the right to assign TAs to any course.

The number of TAs assigned to individual courses will depend on the total TA workload specified by the Course Leader. In principle, courses with practical sessions will have no more than 4 TAs, while courses with only lectures will have no more than 2 TAs. Course Leaders may request for more TAs with justifications for Programme Leader's consideration.

During the course

Maintaining frequent communication between Course Leaders and TAs during the course is essential. The Course Leaders are responsible for the TA performance quality. They should work together to enhance the teaching quality and to achieve the intended course learning outcomes. Any issues related to the lab practical needs to report to the Course Leader immediately.

Course Leaders are obligated to clearly define the TA roles and responsibilities, such as laboratory pre-training and pre-lab talk, while TAs are also obliged to clearly understand their roles and responsibilities. Course Leaders are encouraged to provide constructive feedbacks to TAs on their performance on a regular basis.

Performance evaluation

The performance of TA will be assessed mainly by Course Leaders and TLQ'. TAs with good performance can be nominated by Course Leaders and they will be awarded with an excellence in TA performance certificate.

Feedback

If TAs have any comments, suggestions or complaints on the course, they should raise questions immediately to Course Leaders first. If the TA is not satisfied with the outcome, he/she may discuss the matter with the Programme Leader. Programme Leader will further report the case to Head of Department if needed.

Dear QI Lin,

We are pleased to invite you to participate in the Teaching Assistant (TA) Assignment for the academic year 2020-21. [Please log on to the Online TA Assignment System \(http://\[redacted\]\) to submit your TA preferences by 17 July 2020.](#) Your username and password are listed below.

Your username and password: (There is no space in front)

- Username: [redacted]
- Password: gvK#kJM&

You may wish to note the following points before submission of your preferences in the system:

- Read the descriptions and expected TA duties of individual courses on the system.
- You are encouraged to discuss the TA duties with your supervisors in advance.
- Some courses will be offered in the evening or Saturday to accommodate the part-time MSc students..
- You will be asked to submit up to 3 course preferences, according to your strength and research interest. Please follow the step-by-step instructions on how to submit your preferences on the system.

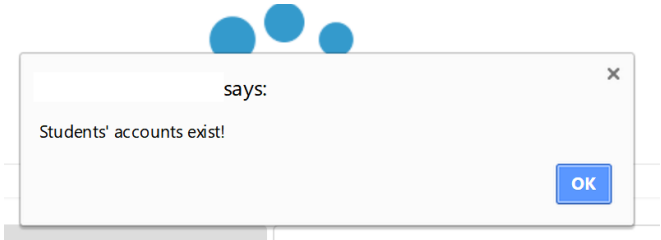

After collecting your preferences the system will assign a course to you for each semester, giving consideration to your indicated preferences and number of vacancies. In order to have a better chance for successful allocation, it is strongly suggested that you should indicate as many choices as possible. If you do not submit any preferences during the period, or the course(s) you have selected have all been filled up, the system will randomly assign a course to you.

The results for TA assignment will be released in late July via email.

If you have any questions, please feel free to contact [redacted] General Office. Thank you.

This is an automatically generated email, please do not reply.

The alert will be shown if the accounts were already generated

Dear D. [redacted],

Thank you for letting us know the TA requirement of your course(s) in 2019-20 earlier.

The TA allocation process is now finished. We are happy to let you know the allocation results as follows. Could you please confirm the results on or before 17 July 2019 by replying an email to GO [redacted]. If we do not hear from you by 17 July 2019, we would assume you are satisfied with the results.

Year/.Semester	Course.Code	Course.Title	Student.No	Name	Supervisor
2019-20/B	BCH2072	Lab Course for Cell Biology & Biochemistry	5532	[redacted]	[redacted]
2019-20/B	BCH2072	Lab Course for Cell Biology & Biochemistry	[redacted]	bms2001 11	[redacted]

The confirmed allocation results will be announced to individual TAs by 31 July 2019. GO will send you the contact details of the TAs afterwards.

If you have any questions, please contact [redacted] at [redacted].

This is an automatically generated email, please do not reply.

Best regards
